FINAL PRODUCT ANNOUNCEMENT

Dear Customer/Partner,

I would like to inform you that Connect One's final product orders of the current G2 generation of products/modules and the Pico WiReach modules will be accepted up to January 10, 2018, and will be supplied 6-12 weeks thereafter. All orders will be NCNR, and payments will need to be made with the order.

The list of products affected is attached in Appendix A.

Technical support for the G2 products/modules and the Pico WiReach modules will continue until January 10, 2018, and discontinue after this date.

Connect One decided to discontinue the development of its module products, including the development of its new G3 generation of products and modules, and therefore new G3 products and modules will not be launched.

Connect One is assessing the company's business strategy for the future, and the company will send out relevant information when it becomes available.

We very much appreciate the business you have provided us, and the mutual success by combining our technology and your expertise and customer base.

We wish you much success in your business going forward and you and your families a happy holiday season.

Sincerely,

Amir Friedman
CEO
Connect One
